-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to an article of footwear with a flexible upper, tightening arrangement on the upper, a heel stiffener with lateral walls with a recess in each lateral wall and a strap affixed to the recess, classified in class 36, subclass 69.
 - II. Claims 14-16, drawn to an article of footwear with a tightening arrangement provided on the upper, a molded heel stiffener with lateral walls and a base and an outer sole attached to the base, classified in class 36, subclass 68.
 - III. Claims 17-20, drawn to an article of footwear with a flexible upper, a tightening arrangement on the upper, a molded heel stiffener with upstanding lateral walls with a notch located between the lateral walls and an outer sole beneath the lateral walls, classified in class 36, subclass 102.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as being used for lateral support as the strap reinforces the ankle area of the user. Invention II has separate utility such as supporting the heel when the heel strikes the ground but still allowing flexibility in the ankle area. Invention III has separate utility such as allowing the heel area of the user's shoe to flex with the normal flexing of the user's foot. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above, have acquired a separate status in the art because of their recognized divergent subject matter, have acquired a separate status in the art as

Art Unit: 3728

shown by their different classification, and the search required for any one Group is not required for any other Group, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
